Justification: Eligibility for this supplemental funding is limited to the 13 Mental Health Technology Transfer Center Cooperative Agreement recipients that were funded in FY 2018 under the Mental Health Technology Transfer Center Cooperative Agreement (SM-18-015). The recipients have unique and special expertise in accelerating the adoption and implementation of mental health-related evidence-based practices; heightening the awareness, knowledge, and skills of the workforce that addresses the needs of individuals with serious mental illness or serious emotional disturbance; fostering regional and national alliances among culturally diverse practitioners, researchers, policy makers, family members, and consumers of mental health services; and ensuring the availability of training and technical assistance to SAMHSA/Center for Mental Health Services grant recipients. The MHTTCs are uniquely positioned to coordinate and manage SAMHSA's national efforts to ensure that high quality, effective mental health treatment and recovery support services, and evidence-based practices are available for all individuals with mental disorders, especially those with serious mental illness or serious emotional disturbance.
